_ ade

ADE interpreta in chiave contemporanea l'artigianalità che da sempre contraddistingue Edoné. L'impiego di tradizionali tecniche ebanistiche, applicate in modo innovativo su mobili contemporanei, avvicina il modello ad un gusto moderno ed esclusivo. Le spinature dritte in massello, visibili a contrasto sui frontali e nelle parti laterali dei cassetti, diventano motivo tecnico ed ornamentale.

ADE explain the contemporary manufacturing that has always identify Edoné. Using traditional tecnics apply with an innovative way on the contemporary furniture, approch the model on a extremely modern taste, preserving an excellent refinement. The straight dovetail joint on contrast between the surfaces and the sides of the drawers becomes a decorative design as well as technical manufacture, showing that functionality can be paired at aesthetic.

Massello *a spinatura dritta.*

Otteniamo la massima qualità, utilizzando legno massiccio anche a livello di componentistica interna. Questo significa che parti non direttamente visibili come sponde cassetto e partizioni interne sono rigorosamente in legno. Nell'assemblaggio dei cassetti viene utilizzata la spinatura dritta, un incastro ereditato dalle tecniche ebanistiche del passato, per ottenere giunzioni perfette e durature nel tempo.

—
Wood with straight dovetail joint. We obtain the highest quality using solid wood even for the internal components. That means that blind parts like the structure of the drawers, bottom and other components are rigorously on wood. To assembly all parts it's used the dovetail joint processing, a system of joint used in the past to obtain perfectly and long lasting junction.

La spinatura dritta *in versione laccata crea un motivo geometrico*

La classica spinatura dritta rivista in chiave laccata, maschera l'effetto del legno massello esaltando il motivo geometrico degli incastri, offrendo così una reinterpretazione delle antiche tecniche ebanistiche.

La medesima lavorazione viene applicata alle colonne a giorno, dove viene eseguito uno scanso nel fianco per l'inserimento di un ripiano vetro fumé.

The straight dovetail joint the lacquered version create a geometrical motif. The classical straight dovetail joint review in the lacquered version, hold the wood effect and intensify the geometrical motif of the dovetail joint, offering a new interpretation, modern and charming, of the old wood manufacturing. The same manufacturing will be apply by the open unit, where it will be made a shaped for the insert of a glass board fumé.
